

# BARRY BREHAUT

— AN INDEPENDENT CANDIDATE —

## Endorsements

**“I first met Barry over 30 years ago when we worked together in a health care setting. What struck me about him was his energy and work ethic, his compassion and commitment to those he was caring for and his ability to identify problems and seek solutions.**

**To this day those personal qualities remain strong. I know him to be person of integrity who has the interests of the island at the forefront and who is passionate about continuing to serve his community with his characteristic diligence.” – Alison Place (Proposer)**

**“I was delighted Barry resolved to stand in this island wide election, I’m pleased to be able to support him once again. He does not shy away from dealing with those challenging or contentious issues, he is not a populist. At this time in particular we need continuity, and deputies like Barry who are prepared to work collaboratively and act decisively” – Victoria Leadbeater (Seconder)**

**“I’ve been impressed with how for the last four years Barry has quietly just got on with one of the toughest, most unpopular jobs in government – that of President of the Committee for the Environment & Infrastructure. I’ve also particularly valued Barry’s calm and consistent contribution this year to the decision making of the Civil Contingencies Authority in managing the Bailiwick’s response to the COVID-19 pandemic.” – Deputy Gavin St Pier**

**“I have worked with Deputy Barry Brehaut in two distinct roles. Firstly, when I was a deputy (from 2008 to 2012), I observed that Barry was always very well prepared on the matters at hand, completely dedicated, unafraid of making tough decisions and one of the hardest working deputies in the States at that time. In the last two years I have been on opposite sides of the table from Barry as the founder of Environmental and Social Impact Monitor. We have found Barry to be decisive, helpful, supportive and very cognisant of the environmental and economic opportunities that Guernsey green finance offers. He was instrumental in migrating to ESI Monitor from an older environmental standard, that we were able to update, internationally benchmark, and present to island businesses to help them achieve higher environmental performance/recognition and position the Island as a true player in green finance.”**

**– Former Deputy Marc Lainé and founder of ESI Monitor**
